Physical inspection	Container Management	Waste Compatibility	Weekly Inspections
Part "B" permit	Waste management	10-Day Area	Perimeter Fencing
Resident Inspector Files	HW & DOT Labeling		

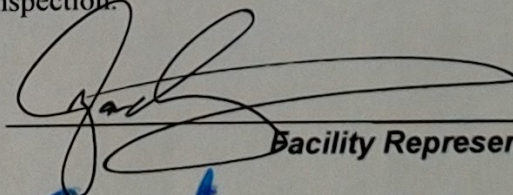

6) Site Deficiencies

None

Docket #: NA

7) Comments/Recommendations

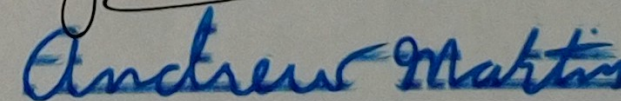

- During the inspection four (4) used fluorescent lamps/bulbs were observed in the office area of the lower building. The bulbs were not containerized or labeled. It is a reminder that the facility must keep mercury containing used lamps in closed and labeled containers at all times except when adding additional lamps/bulbs. If the facility is managing the lamps/bulbs as universal waste, the date that the first lamp/bulb is placed into the container must be tracked and can only be stored onsite for one (1) year. Facility personnel indicated that the bulbs were generated on February 26, 2016, and placed into a container during the inspection.
